FUTURE CAREER..
START HERE!!**

About the Course

Aircraft Maintenance Technology diploma programme prepares you primarily for a career in aviation industry and also tertiary education. This programme is delivered using innovative and hands-on learning techniques.

Upon completion, graduate students are eligible to register as a Qualified Technician (QT) with Malaysia Board of Technologist (MBOT), a professional body for technologist and technicians.

For a licensing requirement, students must obtain an Aircraft Maintenance Licence (AML) from an approved training organisation by the Civil Aviation Authority of Malaysia (CAAM) to conduct AML training, examination, and assessment.

Entry Requirement

You need to pass SPM or its equivalent with at least credits in THREE (3) subjects, including Mathematics and ONE (1) relevant science / technical / vocational subject AND a pass in English.

Duration of Study

3 years

Diploma in Aircraft Maintenance Technology

(MQA/PA 13009)

Major Study Area

- Mathematics
- Physics
- Electrical Fundamentals
- Electronic Fundamentals
- Digital Techniques
- Maintenance Practices
- Basic Aerodynamics
- Human Factors
- Aviation Legislation
- Aircraft Aerodynamics, Structures & Systems
- Gas Turbine Engine
- Propeller

Career Prospects

- Aircraft Maintenance Technician
- Sheet Metal Repair Technician
- Overhaul Technician

Career Pathway

Diploma in Aircraft Maintenance Technology

Job Market

- Technician Level
- MRO, component manufacturing, general aviation, airline

Aircraft Maintenance License (AML)

- Licensed technician, licensed engineer
- CAAM Part 147

Bachelor Degree in Technology

- Malaysian Technical University Network (MTUN)

Financial Aids

- Perbadanan Tabung Pendidikan Tinggi Nasional (PTPTN)
- Kumpulan Wang Simpanan Pekerja (KWSP)
- Local bank (education loan)

Recognition

- Malaysian Qualification Agency (MQA) – MQA/PA 13009
- Malaysia Board of Technologist (MBOT) – MBOT/PA/AV/0/01/003
